#### **About the Global Gender Matters Network**

In a rapidly changing global world, gender matters cross borders and render new meanings. The *Global Gender Matters Network* examines the transnational ways in which gender is configured socio-culturally, economically, and politically in Africa, Asia, the Caribbean, and Latin America.

The *Network* encourages scholars with a particular interest in global gender matters to meet and explore how sexualized and racialized roles, relationships, powers, and conflicts interact with ideas about gender in various non-Western settings.

In spring 2012, the *Global Gender Matters Network* organizes a workshop on *Masculinity, Locality, and Power* which offers thought-provoking lectures and debate.
